FOXBOROUGH · WRENTHAM

Sick Visit Scheduling

- Please call our office at 508-543-6306 (Foxboro) or 508-384-7867 (Wrentham) to schedule same-day sick visits.
- Our goal is to provide you with the first available appointment in either office and we ask that you do your best to accept the earliest available appointment. When we preschedule appointments for later in the day, we may not have appointments available when patients become ill or are injured later in the day.
- Please text the appropriate number above for the office in which you are being seen and you will be checked in and provided with further instructions.
- Patients 2 years and older and anyone accompanying them will be asked to wear a mask for all sick visits.
- When in our office, please watch children closely and respect our office space as our facilities suffer significant damage each day.
- Please be courteous to staff. When there is a delay, it is often because another patient was sicker than expected. We will always take the time necessary to provide comprehensive, safe care and this could lead to unexpected delays.
- We will soon have the ability for you to pay your copayment via the same secure texting platform as your insurance expects these payments to be made at the time of the visit.
